## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

It is with pleasure that I present my first report as your Superintendent of Schools. I am sure you are aware that this report actually covers about sixteen weeks of the year, the time which I have had the pleasure of serving you.

I found the schools of North Yarmouth in very good order, controlled by an efficient, conscientious school board and corps of teachers. I am sure the citizens of this community would want any improvements which might be possible, at least discussed briefly. Therefore, I would like to take this opportunity to remind you that your schools are preparing pupils, who soon may not only become students of our local high school and academies, but may seek admission into institutions of higher learning throughout our country. This means that our schools must prepare these pupils for this work. To do this efficiently, I believe some of our schools are overcrowded; others present the problem of teacher load by grades. Briefly, I would like to see the present town hall used as a junior high school, consisting of grades six, seven and eight. This would enable us to then correlate our course of study with the local academy and broaden our preparation, thus providing a true connection between our elementary and secondary education. This would then allow the lower grades to be divided so that the sub-primary and first grades could be consolidated in one building; likewise grades two and three and four and five. I am sure the parents of the town can quickly see the advantages of such

a set up. For example, take the case of our sub-primaries and first grades, at present they must attend schools with pupils whose ages are, in many instances, twice their own, and as the first year of school is a period of adjustment, I am sure you can readily see that this is not an excellent set up. The teacher cannot do justice to either the child of five or the child of fourteen. I would like your permission to try out the above plan. You are acquainted with the changes made at the Buxton and Walnut Hill schools, also, the conveying of grade eight to the town hall. In both cases I have found improved conditions. As a result the new school at the town hall is a decided step in educational advancement.

It will be necessary this year to ask the citizens for additional school funds. The reasons are obvious; first, the additional school which was opened at the town hall, and was certainly a step in the advancement of our school system; second, our teachers deserve reasonable increases in salaries due to the increased cost of living; third, increased enrollment and increased cost of school supplies, in many cases as much as thirty-five per cent. I believe in these crucial times our patriotic duty is to give to our children the best that can be obtained. They are the citizens of tomorrow, a tomorrow toward which all of us look with grave forebearings.

Your school committee should be congratulated upon the financial condition of the school account for the past year. When we consider that our enrollment has increased over twenty-five per cent, and the cost of maintenance is up about thirty-five per cent, we are most conscious of the abilities of our school officials.

The usual repairs have been made, additional textbooks purchased, and some surplus commodities used for noon lunches. It was not possible to carry on the dental clinic this year owing to an acute shortage of dentists in this vicinity.

In closing I wish to thank the citizens of the town, the superintending school committee, teachers, and bus drivers for their fine cooperation given me during the short time it has been my pleasure to serve you.

Respectfully submitted,

ROLF B. MOTZ,  
Superintendent of Schools.

## AUDITOR'S REPORT

To the Taxpayers of the Town of North Yarmouth, Maine:

We have audited the financial records of the Municipal Officers for the year ended February 12, 1943.

All money shown to have been received and disbursed by the Treasurer and Collector is fully accounted.

According to my best knowledge and belief the accompanying Town Report is true and correct.

Respectfully submitted,

GEORGE M. GRAFFAM, C. P. A.  
Auditor of the Town of North Yarmouth.

Portland, Maine, February 22, 1943.
